

# **BB FOUR PLUS**

**BIOTIN**- 15mg Biotin/head/day helps maintain hoof integrity for strong healthy hooves. This helps the high producing dairy cows maximize dry matter intake.

## **YEAST SUPPLEMENT-**

- Stimulates the growth of beneficial microorganisms in the rumen
- Metabolically active yeast cells are needed for stimulatory activities in the rumen
- Influences ruminal lactic acid metabolism helping to overcome ruminal dysfunction in the presence of high starch diets
- Influences ruminal digestion improving efficiency of high fiber diets
- Alter ruminal nitrogen metabolism aiding in efficiency of ammonia nitrogen into microbial protein

## **SELENIUM YEAST-**

- Research shows a significant reduction in SCC from 249,700 to 174,500 in eight weeks
- Reduces culling rate for mastitis by 50% compared to controls
- Offers selenium in a natural form best able to absorb, and utilize
- Enables the cow to form tissue reserves passing on, selenium to the calf without sacrificing her own requirements
- Consider use of this product if symptoms of
  - reduced incidence to disease
  - poor reproductive efficiency
  - retained placenta
  - high somatic cell counts
  - weak or stillborn calves
  - poor growth
  - white muscle disease

**PURPOSE STATEMENT:** A Nutritional Supplement For Dairy Cattle

### GUARENTEED ANALYSIS

Saccharomyces Cerevisae.....33 Billion cfu/ Lb
