FEEDING INSTRUCTIONS

Feed ½ to 1 lb. of BB Pleasure Time per 100 Lbs. of body weight per head/day. Always feed at least 1% of body weight in hay or hay equivalent from pasture. Vary the amount of BB Pleasure Time based on the quality of the forage and amount of exercise. Consult a Buckley Bros. representative for specific feeding instructions. Provide plenty of clean fresh water. Free choice salt should be available to all horses. Always store feed properly to avoid insect contamination.
WARNING: Do not feed to sheep as it may cause copper toxicity.

CHELATED TRACE MINERALS – Copper,zinc, Magnesium,potassium,selenium, and manganese. The selenium will enhance cellular antioxidant status. Chelated minerals are more biologically available, improving many biochemical reactions, thus the potential for improved hair coat, skeletal structure, and immune system.

ADDITIVES

Amino Acids – LLysine,methionine, and threonine To ensure growth and performance

Yeast – enhances the activity of fiber digesting bacteria in the hindgut

Probiotics – Helps maintain correct pH in the intestine For optimum absorption of nutrients
