

BB RABBIT RATION

BALANCED – A complete feed formula for all breeds of rabbits. No other supplements are needed. Formulated to meet and/or exceed nutrient requirements for rabbits established by the National Research Council. Amino acid (lysine and methionine) balanced for improved growth rates.

MINI-PELLET FORM – Helps minimize dust and feed wastage. Small pellets ideal for smaller breeds and young rabbits.

CONTAINS NO ANTIBIOTICS OR ADDITIVES

SHOW QUALITY FEED – Contains milk protein ingredients for improved hair coat and show condition.

PALATABLE- Contains a high level of alfalfa meal, a key component of the fiber level essential to proper digestion of rabbits.

FEED TYPE- COMPLETE FEED

FEED FORM- PELLET

PURPOSE STATEMENT- A Complete Feed For All Rabbits.

INGREDIENTS

Grain products, plant protein products, forage products, roughage products, processed grain by-products, animal protein products, calcium carbonate, monocalcium phosphate, dicalcium phosphate, salt, copper sulfate, ferrous sulfate, zinc oxide, zinc sulfate, manganese oxide, manganese sulfate, ethylenediamine dihydriodide, basic copper chloride, sodium selenite, vitamin A supplement, Vitamin D3 supplement, Vitamin E supplement, Vitamin B12 supplement, menadione sodium bisulfite complex, riboflavin supplement, d-calcium pantothenate, niacin supplement, choline chloride

FEEDING DIRECTIONS

<u>Class</u>	<u>Amount per day</u>
Resting Does	4-6 oz
Gestating Does	5-7 oz.
Nursing Does	
First 3 weeks*	0.5-0.75 lb.
3 weeks to weaning*	1.0-1.5 lb.
Growing Rabbits*	2-4 oz.

*For best results, self-feed during this period.

When feeding breeding stock, the exact amount of feed to be offered daily should be determined by observing body condition. Do not allow breeding stock to become too fat.

Provide clean fresh water at all times.

REMINDER: Feed is perishable. Store this product in a cool, dry area away from insects.
