

BB PRO PLUS **MINERAL** **IGR/CTC 1400 (med.)**

FLAX-CANOLA COMBINATION- This high linoleic fatty acid level can boost cold tolerance of newborn calves, improved immune function, earlier cycles, and larger embryos, improved uterine health and pregnancy, improved visible signs of heat.

SOURCE OF METHOPRENE – Insect growth regulator controls the development of horn flies in manure

MACROMINERALS- Calcium, phosphorus, potassium and magnesium balanced for proper forage supplementation. Higher magnesium levels help reduce chances of grass tetany in low magnesium soils

ALBION CHELATED TRACE MINERALS- The enhanced bioavailability of amino acid chelated mineral ingredients provides a cost effective alternative to mineral shortages and traditional sources of trace elements. Albion’s patented process imitates the natural method of chelating minerals. This can lead to improved breeding performance, healthy immune systems and overall bloom and vitality

COMPLETE VITAMIN SUPPLEMENT- Vitamins A, B Complex, D and E for vitality and performance in winter and stressful periods

YEAST CULTURE – Improves forage digestibility and product palatability
