

SHOW CIRCUIT ADVANCE

MULTIPLE SOURCES OF AMINO ACIDS- A combination of protein sources achieve the complete balance of amino acids supporting maximum gain at an economical cost

LIQUID ANIMAL FAT- Buckley Bros. adds animal fat to increase caloric levels of the product. Fat has 225% more calories than corn or protein sources

CONVENIENT- One product to mix with corn versus separate premix-protein-fat products. Avoids handling liquids fats at the mixer

BALANCED AMINO ACID/ENERGY RATIO- The product when mixed with corn has a high nutrient density. The combination of fat and high amino acid levels results in maximum lean daily gain with the least possible pounds of feed per pound of gain

ORGANIC SELENIUM- Biologically available organic selenium may help develop stronger immune systems in pigs to fight disease

VITAMINS & MINERALS- All the vitamins, trace and macro minerals to balance growing pig rations

FEED TYPE- SUPPLEMENT

FEED FORM- MEAL

PURPOSE STATEMENT- A Concentrated Supplement For Pigs Weighing From 25 to 50 Lbs.

FEEDING DIRECTIONS

Feed the above mixtures free choice to the appropriate weight of swine. Adjust feeders regularly so that feed is constantly available to each animal but not so much that feed is wasted. CAUTION: Follow label instructions. The addition to feed to higher levels of selenium than provided for in the instructions is prohibited. Store feed in a clean dry place protected from rodents, birds and insects. Moldy or insect infested feed may cause illness or death. Use grain that has been properly dried and stored. Grain that shows signs of mold should be avoided!. When grain is processed mold activity increases dramatically and can produce severe problems within hours.
