

BB SHEEP MINERAL

CODE 41790

PALATABLE- Helps to achieve one ounce of consumption/head/day to target selenium levels needed.

BALANCED MACRO MINERAL- A 2:1 ratio of calcium to phosphorus helps maintain proper mineral levels in bone and muscle. High calcium levels help to prevent urinary calculi.

BIOTIN – This water soluble B vitamin helps in the production of keratin, a protein used in the production of hoof tissue. This will prevent lameness in sheep by reducing hoof disorders based on a 12 month, 2007 study in Greece.

TRACE MINERALS- Aids in overall animal bloom. Increased immune response, performance and improved skin and hoof tissue with added levels of zinc, selenium and iodine

VITAMIN FORTIFICATION- High vitamin levels for health and condition including Vitamins A, D, E, K, niacin, Vitamin B12, calcium pantothenate and choline chloride.

FEED TYPE- FREE CHOICE MINERAL

FEED FORM- LOOSE MINERAL

A Free Choice Mineral For Breeding Sheep And Lambs

GUARANTEED ANALYSIS

Calcium (Min).....	10.00%
Calcium (Max).....	11.00%
Phosphorus (Min).....	5.00%
